

Gayane Baghumyan, PhD

PEDAGOGICAL TRAINING

All CERGE-EI Graduate Teaching Fellows have successfully completed a 40-hour intensive pedagogical training course based on Economics and Education literature.

Seminar topics include: effective teaching strategies, planning and delivering courses and lessons, ideas for teaching large classes, using technology in the classroom, evaluating students, teaching in English, and dealing with cheating, plagiarism, and difficult classes.

Fellows are monitored throughout their teaching Fellowships and given ongoing pedagogical support where needed.

They are also encouraged to engage in continual development of their teaching skills and development of collaborative relationships with other professors in the institutions in which they teach.

LIST OF COURSES TAUGHT:

1. Statistics (Fall 2022)
2. Applied Statistics (Spring 2023)
3. Statistics (Fall 2023)
4. Applied Statistics (Spring 2024)

CERGE-EI Teaching Fellows are evaluated each semester via student evaluations and brief supervisor reports. The table summarizes data on the performance of the Fellow (as compared to all Fellows teaching in the same semester).

Overall Performance Points Rating Distribution (Scale 1-5, 5 being the ideal)

Course title	Course/Teacher Rating		# Forms ³	Avg Course/Teacher Rating for all Fellows/Semester		# Fellows
	Course ¹	Teacher ²		Course	Teacher	
Fall 2022 / Armenian State University of Economics Gyumri branch / Gyumri, Armenia						
Statistics	4.41	4.72	21	4.33	4.68	185
Spring 2023 / Armenian State University of Economics Gyumri branch / Gyumri, Armenia						
Applied Statistics	4.5	4.8	22	4.27	4.62	134
Fall 2023 / Armenian State University of Economics Gyumri branch / Gyumri, Armenia						
Statistics	4.54	4.77	17	4.24	4.63	164
Spring 2024 / Armenian State University of Economics Gyumri branch / Gyumri, Armenia						
Applied Statistics	4.73	4.86	9	4.28	4.68	96

¹ Course rating is the unweighted average of the following evaluation criteria:

- 1) How demanding was the course?
- 2) How useful were the exercise sessions?
- 3) How useful were the lectures?
- 4) How helpful were the readings?
- 5) How strongly did the course inspire critical/independent thinking?

² Teacher rating is the unweighted average of the following evaluation criteria:

- 6) How organized and prepared for class was the teacher?
- 7) How strongly did the teacher encourage active student participation?
- 8) Was teacher available for student questions and concerns?
- 9) Was teacher able to clarify difficult materials?

³ Teaching Fellows are encouraged to distribute evaluation forms among all students enrolled to the course, but usually only a certain number of students hand in the filled in forms.

TO WHOM IT MAY CONCERN,

Hereby we confirm that **Ms. Gayane Baghumyan**, born on July 25, 1995, was the Teaching Assistant of the following PhD level courses at CERGE-EI:

- Experimental Economics in the Spring semester 2023
- Experimental Economics in the Spring semester 2024

The overall evaluation of the course is (1 poor - 5 excellent):

Semester	Course	Instructors	Avg. of 4 TA Questions	Overall TA Performance	Number of Forms
Spring 2023	Experimental Economics	Michal Bauer	4.65	4.6	5
Spring 2024	Experimental Economics	Michal Bauer	4.86	4.86	7

The evaluation records of all courses taught at the CERGE-EI and of almost all other teaching activities of our students are kept in the Study Affairs Office and can be presented on request.

Would you have questions, please feel free to contact us:

E – mail: study@cerge-ei.cz

SELECTED STUDENT COMMENTS

- I would recommend this course because this course will help them to get basic knowledge about statistics , which is very useful to understand that so many problems in our encircling world are solved via tools of statistics. Thank you for the saturated meetings.
- I highly recommend the course to other students. It provides a practical understanding of real-life statistics, closely connected to the economy. The relevance of the content adds value to the learning experience.
- I will advise, because we are dealing with data that is necessary for managers, economists, financiers, etc. In addition, it is interesting, the lecturer provides us with additional interesting materials.

SELECTED STUDENT COMMENTS

- The course is interesting in the scope of our profession, but it seems to me that humanitarian people will not be interested. Thank you
- I will recommend this course because it was both interesting and very useful for us in real life. Thank you for running a readable course and always being willing to answer our questions.
- I would recommend this course. The course and the teacher were good, teacher explained everything we asked
- I would recommend other students to attend as the course is interesting and they will learn a lot

CERGE-EI COURSE EVALUATION**SPRING SEMESTER 2023**

Name of Course: EXPERIMENTAL ECONOMICS

Name of Teacher: MICHAL BAUER

Name of TA: GAYANE BAGHUMYAN

TA – COMMENTS – GAYANE BAGHUMYAN

Please write comments below considering qualities like encouraging students to participate actively in class, using time efficiently, good use of examples, available and able to answer questions.

- Gayane was friendly and approachable, and her oral delivery was of a high standard. She could do well to better organise her slides and to show the in-class experiment results (sometimes she felt a bit confused or lacking a little bit of confidence give the class the requisite direction). Also, giving a wrap up of the session at the end with a set of conclusions and an overview of what was done and what we learned by it could be useful (this was not always clear given the practical focus of the seminars). With that being said though, definitely one of the friendliest and most encouraging TAs at CERGE-EI, which is a big asset.
- The TA was always prepared for class, clarified questions and provided sufficient support to us. Thank you Gayane
- Very good TA! She could explain everything in an easy way so that we could follow her. Actually the sessions are interactive as well. By getting a first hand experience in experiments is a good method of learning. Gayane could very professionally lead these discussions and answered all the questions in a kind and respectful way.
- -
- The TA was excellent! She was very passionate while teaching and genuinely wanted us to understand all the concepts.

CERGE-EI COURSE EVALUATION**SPRING SEMESTER 2024**

TA – COMMENTS – GAYANE BAGHUMYAN

Please write comments below considering qualities like encouraging students to participate actively in class, using time efficiently, good use of examples, available and able to answer questions.

- Very good!
- -
- -
- She is a great TA
- I appreciated that Gayane was always well prepared and showed us in practice how the experiments are performed. She was also very friendly and open to any questions. The ES sessions sometimes suffered from low number of students attending them (which is certainly not any fault of the TA). I was thinking that maybe a more convenient time slot for them could elicit higher attendance.
- -
- Good
